R.P.P INFRA PROJECTS LIMITED  
ANNUAL REPORT 2014-15

## DISCLAIMER

In this Annual Report we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements – written and oral – that we periodically make contain forward-looking statements that set out anticipated results based on the management’s plans and assumptions. We have tried wherever possible to identify such statements by using words such as ‘anticipate’, ‘estimate’, ‘expects’, ‘projects’, ‘intends’, ‘plans’, ‘believes’ and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

There are two points that we wish to make about R.P.P Infra Projects Limited.

We are one of the most profitable infrastructure companies in India; during one of the most challenging downturns in India's infrastructure sector.

We are a niche infrastructure player, selecting to grow our presence in select spaces where we enjoy a demonstrated competitive advantage.

This consistent focus makes R.P.P Infra one of the most attractive proxies of India's infrastructure growth across the foreseeable future.

# R.P.P Infra. One of India's fastest growing niche infrastructure players

## This is our business

R.P.P Infra has been engaged in nation-building since 1995. The Company has executed projects in Tamil Nadu, Karnataka and Andhra Pradesh (erstwhile).

## These are the verticals we serve

R.P.P Infra is engaged in construction across multiple infrastructure verticals

like roads, buildings, industrial structures, power and irrigation.

## This is where we are present

R.P.P Infra had 26 concurrent projects in Tamil Nadu, Karnataka, Andhra and Telangana (as on 31st March 2015).

## This is how we are valued

The market capitalization of the Company (listed on the Bombay Stock Exchange) increased from ₹133.57 crores

as on 31st March 2014 to ₹244.09 crores as on 31st March 2015.

## Our promoters

R.P.P Infra is promoted by Mr. P. Arulsundaram (Managing Director), a first-generation entrepreneur. Mrs. A. Nithya (Whole Time Director) possesses a strong experience in infrastructure financing. The promoters are assisted by a team of techno-commercial professionals.

## India. South India. And R.P.P Infra

India is the fastest growing major global economy (7.5% growth in Q4, 2014-15)

The construction:GDP elasticity of 1.3 under-performed in last few years; trend expected to correct in the next few years

The Indian government allocated USD 1.3 trillion for infrastructure development in the 13th Five Year Plan.

Southern India. Growing its share of national GDP. Tamil Nadu, Karnataka, Andhra Pradesh and Telangana reporting average GSDP growth of 10-15%, higher than the all-India average.

The Tamil Nadu Vision 2023 document envisages USD 25 billion for infrastructure development.

The Andhra Pradesh government's projected investment in its new capital's infrastructure is expected to be ₹20,000 crores.

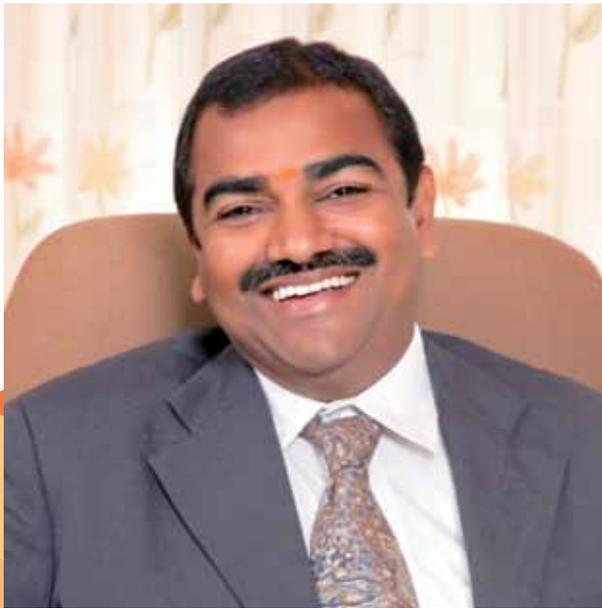

Telangana identified 34 priority sectors for industrial and infrastructure development.

R.P.P Infra is strengthening competencies through JV partners and with an asset light business model and strong relationships with equipment rental agencies, the company is able to ensure faster mobilization of equipment, quicker project liquidation and lower costs. Besides, quicker project completion also

helps it free-up capacity to bid for and bag a larger number of projects. Moreover, higher intake of orders and quicker liquidation has result in a larger cash flow pool and higher network that enables the company to strengthen its prequalification criteria towards bidding for larger projects.

In addition, with revenue security through working on government projects only, the company has adequately created a platform for long-term shareholder value creation.

## Chairman's message

### Vision

To be a global leader in the construction and infrastructure industry by continuously moving forward. To have international standards by adopting latest technologies, ideas and systems by creating quality-minded employees to deliver client expectations.

### Mission

To perform exceptionally well in all aspects in the industry by providing innovative, reliable and high quality services to our clients. Developing highly trained loyal employees who work as a team to anticipate, identify and respond to the client needs.

IT GIVES ME PLEASURE IN PRESENTING THE HIGHLIGHTS OF YOUR COMPANY'S PERFORMANCE FOR THE YEAR 2014-2015.

**T**he financial year ended 31st March 2015 was a challenging one, with the construction landscape clouded by rising costs, intense competition, macro-economic and liquidity concerns. Nevertheless, I am glad to report that the Company delivered superior financial performance with improvements across key parameters, due in no small part to our continued efforts in productivity enhancement and resource management.

India's economy is in the midst of a recovery marked by lower fiscal and current account deficit, moderated inflation and weak commodity prices. The result is that our country seems poised to return to a high-growth path.

Over the years, the rapid growth of the Indian economy has placed an increasing stress on physical infrastructure - electricity and power, railways, roads, ports, irrigation, water supply and sanitation, which already suffer from capacity and efficiency deficit. This year's Union Budget demonstrates the Government's intention to kick-start fresh infrastructure investment and unblock the pipeline. Indeed, by increasing public spending, creating new infrastructure funds and laying the foundation for a stronger, more transparent PPP process, the government seems committed to address the key challenges that have long been raised by international and domestic investors. The result is that states will also now be more empowered to spend on infrastructure capacity creation, catalyzing economic growth.

### Performance review

The Company's revenue for the FY15 was ₹263 crores representing a 13% increase compared to the previous financial year. Net profit for the year was ₹17.27 crores as against ₹11.69 crores in the previous year.

Some of the significant projects undertaken by the Company during the year included:

- Construction of godowns at Thanjavur, Coimbatore and other sites for TNCSC (Tamil Nadu Civil Supplies Corporation Limited)
- Construction of staff quarters for Tangedco
- Structural and civil work for BHEL
- Site grading work at Ennore for NTPC
- Civil works at MSEZL Pipeline Corridor for the Mangalore SEZ
- Providing CWSS (Combined Water Supply Schemes) to rural habitations in Salem, Tirupur and Trichy districts
- Construction of stormwater drains at South Buckingham Canal Water Shed and Velachery water shed for Chennai Corporation
- Implementation of Phase II eco restoration in the 300 acres of Adyar estuary and creek

The performance of the subsidiary companies remained moderate with the Group's consolidated revenues for the year being ₹266 crores, while the consolidated profit after tax was ₹16.58 crores.

The Board of Directors proposed a dividend of ₹0.50 per equity share for the financial year ending 31st March 2015.

### **Strengthening the business**

We are stepping up our operations to grow exponentially with collaborations that transcend geographical and cultural boundaries. The Company entered into a Memorandum of Joint Co-operation Agreement with Hunan Construction Engineering Group Corporation, China, and Canadian Delamore & Owl Group of Companies, to act as strategic joint venture partners to jointly develop and fund projects across India and neighbouring countries. Hunan Group will be the lead technical construction partner dealing with the supply of equipment, design, engineering support besides offering expertise in project execution; R.P.P Infra will address tendering processes and key aspects like project management and project expenditure; Delamore & Owl Group would provide assistance in securing project financing, acting as a co-sponsor and even in cost management. This joint collaboration will help us bid for large infrastructure projects.

### **Outlook**

R.P.P Infra continues to build on core competencies thus reducing the risk of dependence, on any one sector or project and helps in participating in projects across the country. We will stay focused and selective in achieving increased returns. Vigorous efforts are

ongoing to procure high value and high return contracts in niche projects. Our efforts will focus on increasing manifold our conversion ratios from bid to order.

While the Company has done a creditable job in managing its resources, we are not resting on our laurels. On the contrary, we will continue to strive hard and intensify our efforts to optimize operating costs and streamline work processes.

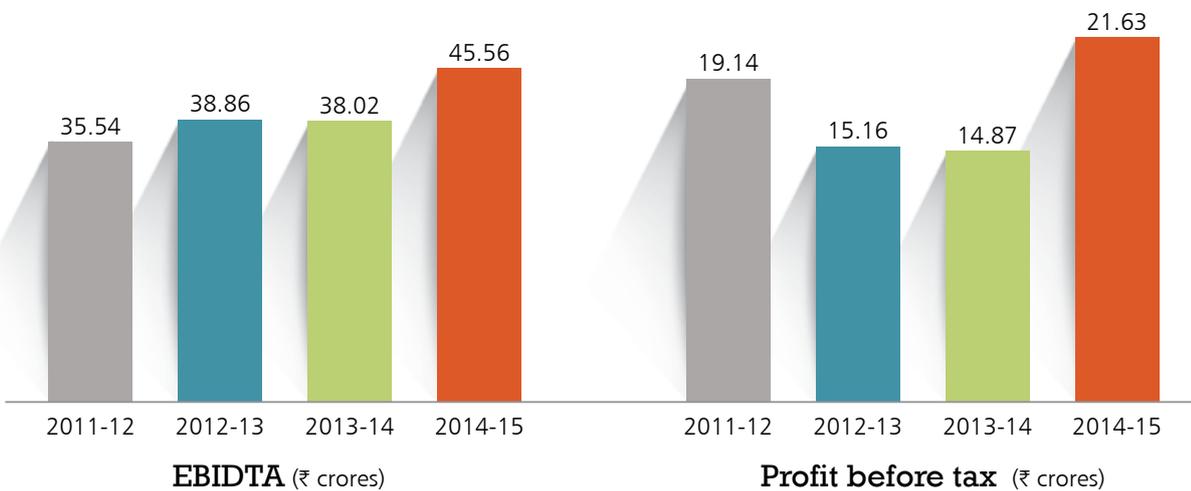

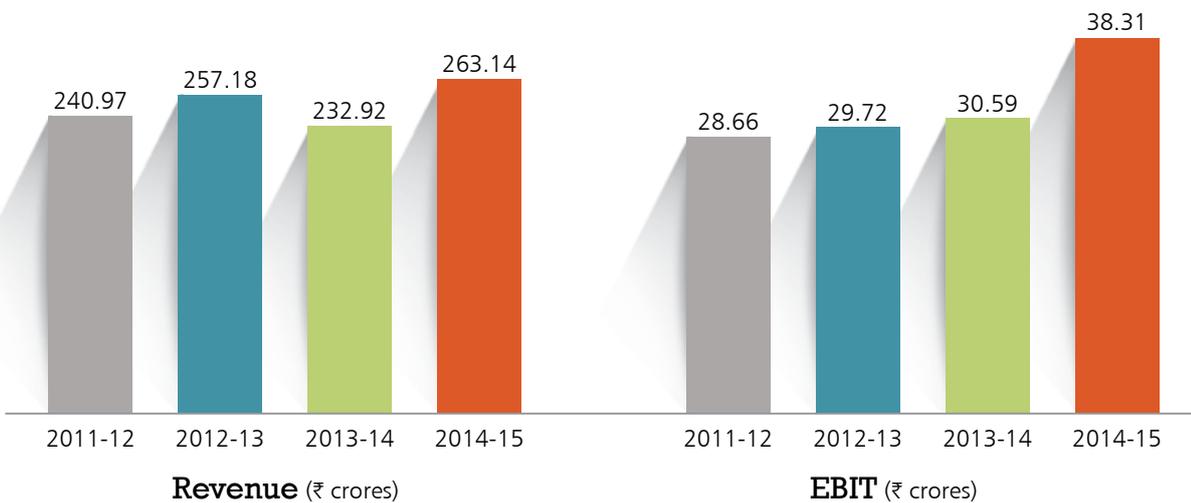

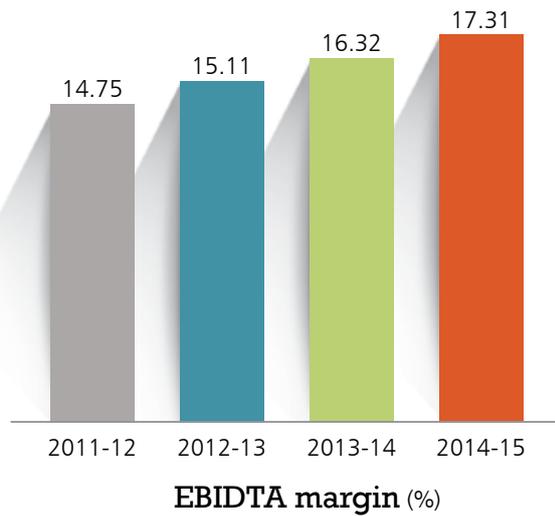

On behalf of the Board, I wish to express my gratitude to all our shareholders, clients, bankers, suppliers and business partners for their steadfast support and continued confidence in us. I also thank our management team and employees for their dedication, initiative and team spirit. I would also like to express my appreciation to my fellow Board members whose wise counsel and commitment have been invaluable.

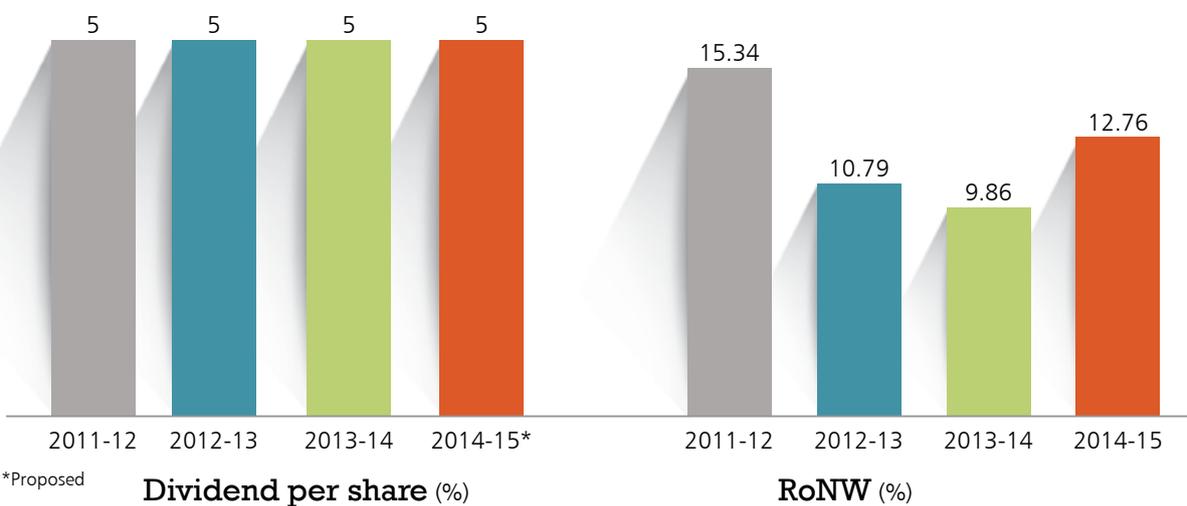

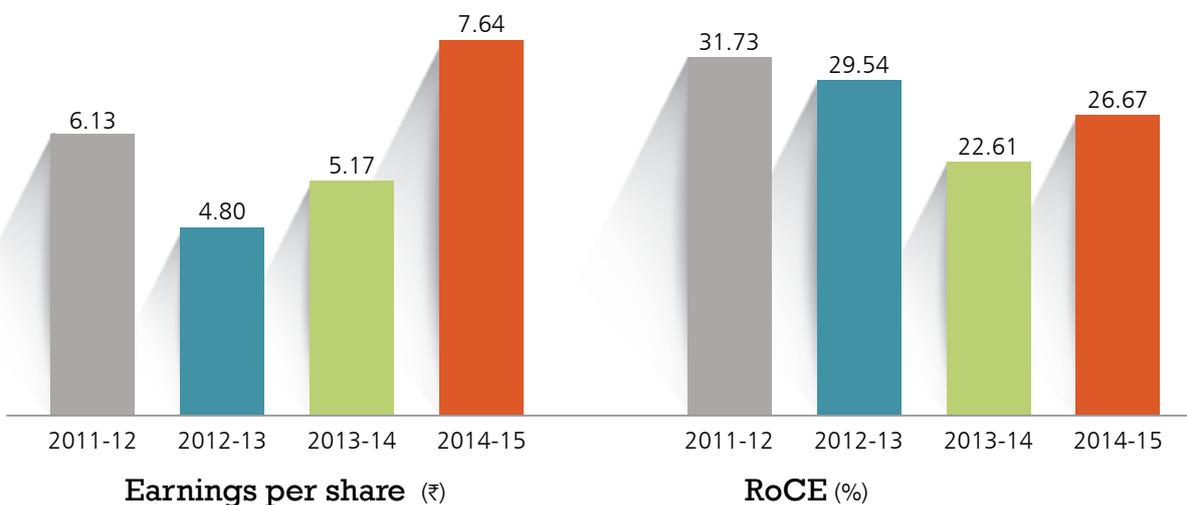

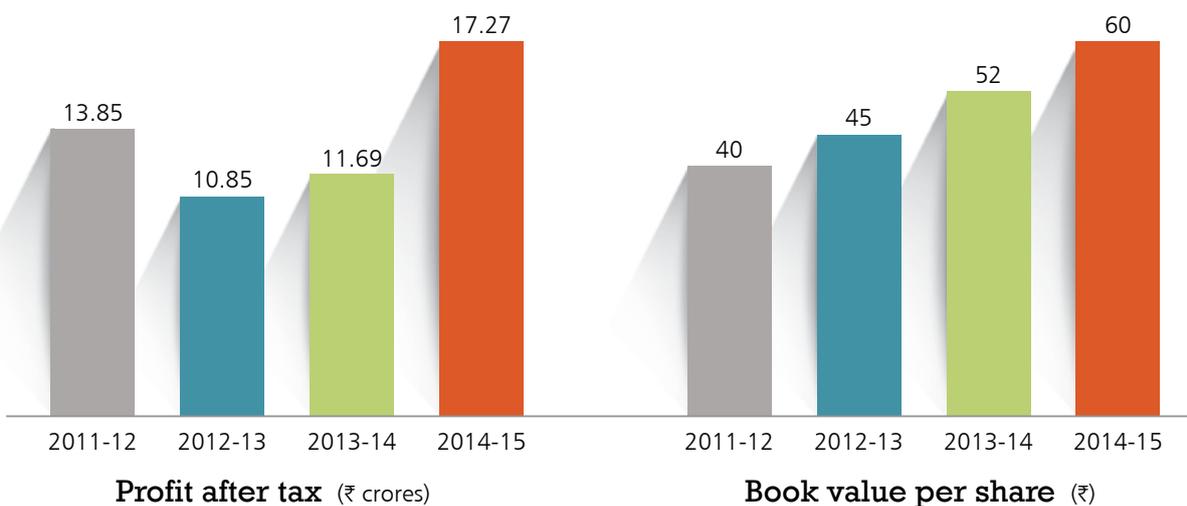

As we forge ahead, we will be relentless in building on our strong foundation and look forward to the next phase of your Company's growth.

Thank you

# Our financial journey

\*Proposed

# Kick-starting our virtuous growth cycle

Even before the ambitious 'Make in India' campaign was launched by the Indian government, R.P.P Infra has been focused on 'making' India, engaged in the development of core infrastructure that has enhanced the country's economic capacity.

1

## WHAT IS GOOD FOR INDIA'S INFRASTRUCTURE IS GOOD FOR THE COUNTRY

- a. Infrastructure investments for the 12th Plan are pegged at USD 1.3 trillion
- b. The government created a ₹20,000 crores infrastructure development fund
- c. The government allocated ₹50,000 crores to the Pradhan Mantri Krishi Sinchai Yojana
- d. The government set an ambitious 37,000-km road development target under the Pradhan Mantri Gram Sadak Yojana
- e. The government earmarked ₹1 lakh crores for transmission projects in its ambitious 'Power for all by 2022' vision
- f. The Tamil Nadu government in its final year before the elections is expected to accelerate infrastructure development

2

## ... R.P.P INFRA IS ENGAGED IN NATION BUILDING

- a. The Company is present in the construction of irrigation, roads and highways, water pipeline projects as well as buildings and industrial structures
- b. The Company is engaged in the construction of RCC roads and water pipeline projects – niche, complex and profitable spaces

3

## ... R.P.P INFRA IS ATTRACTIVELY POSITIONED TO ADDRESS MORE ORDERS

- a. The Company possesses attractive multi-year presence in various verticals
- b. The Company entered into joint ventures with Hunan Corporation and Delamore & Owl to bid for larger projects
- c. R.P.P Infra is focused on active rotation of equipment and resources to accelerate workflow
- d. The Company expects to strengthen its net worth to reinforce its pre-qualification

4

## ... R.P.P INFRA WILL GROW ITS CASH PROFIT AND BID FOR MORE PROJECTS ORDERS

- a. Higher intake of orders and quicker projects liquidation will result in a larger cash flow pool

Being responsive to market changes and dynamics  
Invested adequately to enhance project quality and delivery timeliness  
Rich and diverse terrain understanding  
Capitalising on a quality gross block (gross fixed assets size of ₹64.30 crores as on 31 March 2015)  
Deploying specialized project coordinators with strong techno-commercial understanding

## 3 Capabilities

Enduring civil engineering capabilities  
Increasing sub-contraction  
Growing focus on core competence – project design, customer service and receivables management  
Planned project management (blueprint and execution)  
Consistent investment in skills development

# 4

## Accurate project modelling

Accurate project estimation coupled with accurate implementation  
Engagement in projects with attractive profitability  
Investment in cutting-edge IT software and tools to moderate costs

# 5

## Responsibility

High onsite safety culture  
Investment in state-of-the-art equipment and environment-friendly practices

# 6

## Client-centricity

Utilising client endorsements and certifications  
Enhancing client confidence; high proportion of repeat projects  
Mobilising bonuses through timely projects completion

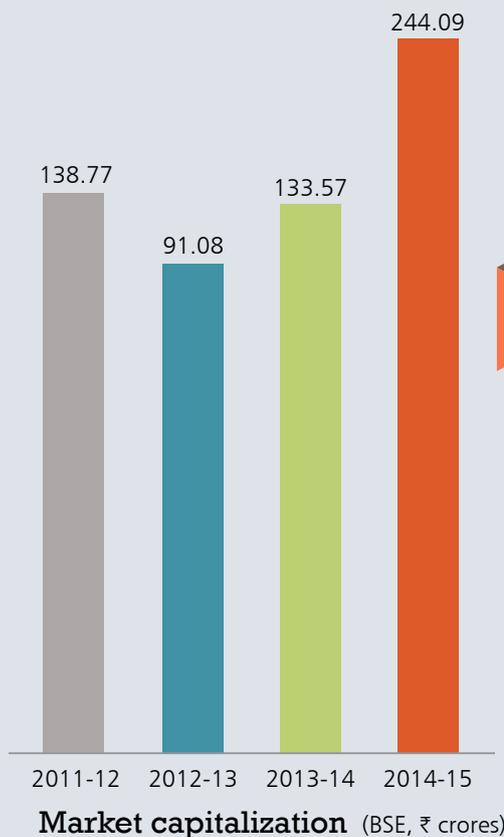

# Our business pillars will help generate consistent value for our shareholders.

At R.P.P Infra, our ability to enhance value for our shareholders is reflected in attractive returns on employed capital. This return increased 406 bps to 26.67% over the past year.

Correspondingly, the company's market capitalization strengthened from ₹133.57 crores as on 31st March 2014 to ₹244.09 crores as on 31st March 2015, a reflection of the growing faith in the company's business model.

The Company possesses a diversified shareholder base. Some 31.4% of the equity capital was by the Company's promoters; 41.28% was unencumbered.

## Liquidity

The Company's cash and cash receivables increased from ₹11.69 crores in 2013-14 to ₹14.16 crores in 2014-15. The Company's growing cash and liquid

balance is an indicator of operational efficiency and represents a crucial source of reserves.

## Return on gross block

R.P.P Infra's gross block represents a competitive advantage in terms of state-of-the-art equipment, machinery and technology. It also indicates an ability to swiftly mobilise resources for projects and ensure their in-time completion. The Company

also pursues an asset-light approach, generating superior business returns. For specialized jobs, either the Company hires the necessary equipment, or purchases them with subsequent disposal following use.

## Margins

R.P.P Infra maintained its 2014-15 EBIDTA margins at the level of the previous year. The Company's EBIDTA margin of 17.31% was among the highest in the Indian infrastructure space. The net profit margin of 6.56% in 2014-15 was higher than the margin of 5.01% reported in the previous financial year. This could have been higher but for a ₹6.28 crores revenue accrual due to a change in the

depreciation policy from the written down (WDV) to the straight line (SLM) method (resulting in a more accurate usage pattern and economic asset benefits). Going forward, softening commodity prices and bulk procurement will enhance margins. We will continue to bid for projects with attractive margins.

## Dividend

R.P.P Infra has proposed a 5% dividend of Re 0.50 per share (face value of ₹10 each) in 2014-15. This announcement was consistent with the Company's dividend payout policy; the Company attempted to

balance rewarding shareholders in the immediate term and reinvesting cash profits to grow the business.

## Earnings per share and book value

R.P.P Infra's EPS climbed up from ₹5.17 in 2013-14 to ₹7.64 in 2014-15. The Company's book value

per share stood at ₹60 in 2014-15 against ₹53.08 in 2014-15.

**Q&A****WITH THE WHOLE TIME DIRECTOR***A. Nithya, Whole Time Director, discusses the Company's scalable and sustainable operating model***Q****HOW IS THE COMPANY'S POSITIONING UNIQUE IN THE COUNTRY'S INFRASTRUCTURE LANDSCAPE?****A**

I must answer by providing an insight into where the company comes from. Initially, R.P.P Infra was entirely focused on government contracts; thereafter, the Company ventured into the private development space. The result was that despite completing all stated project milestones on schedules, our receivables were affected.

Consequently, the Company selected to return to government contracts, marked project scale and secured receivables. The result is that our order book of ₹857 crores (31st March 2015) mostly comprised government contracts.

**Q****WHAT OTHER POINTS EMPHASISE THE UNIQUENESS OF THE MODEL?****A**

We have prudently selected to be present in infrastructure niches marked by low competition and attractive margins. To each of these projects, we have brought our robust profit centre focus marked by a dedicated P&L account and a

dedicated techno-commercial project coordinator assigned the responsibility to match cash inflows with outflows along with incentives for outperformance - an entrepreneurial mindset.

**Q****WHAT DO YOU REFER TO AS 'INFRASTRUCTURE NICHE'?****A**

We believe in carving out a presence across infrastructure buckets marked by complexity, expertise and equipment specialisation. For instance, we specialise in building reinforced concrete roads that are gaining traction on account of their longevity and low maintenance costs (over the bitumen equivalent).

In the drinking water segment, we enjoy a strong presence in water pipeline projects, connecting storage with multiple consumption points.

Our presence in these niche spaces not only enhances our credibility to bid for similar projects but also helps us generate higher margins.

**Q****IS THE ORDER BOOK COMPOSITION ANY SIGN OF HOW THE COMPANY MAY BE ABLE TO REPORT INDUSTRY-LEADING MARGINS?****A**

There are two aspects to this point.

One, our average project size is ₹50-100 crores, which enables us to control onsite operations, accelerate project completion, raise milestone bills faster and enhance liquidity. The necessity of high liquidity for a working capital-intensive business cannot be over-emphasised. Besides,

periodic engagements with customers on pending payments strengthened our working capital cycle as well.

Two, a large composition of our order book is weighted towards large projects generating high EBIDTA margins (average 14-15%), enhancing our overall profitability.

**Q HOW DOES THE COMPANY EXPECT TO SCALE OPERATIONS?**

**A** With more than a two-decade experience in the infrastructure business, we are attractively positioned to execute larger projects. Over the last few years, a relatively small network of ₹135.28 crores (close of 2014-15) prevented the

company from participating in large projects. However, R.P.P Infra overcome this limitation and is preparing to graduate to the next phase of its growth.

**Q HOW DID R.P.P INFRA OVERCOME THIS CHALLENGE?**

**A** In June 2015 (post-Balance Sheet development), we entered into an exclusive joint agreement with China-based Hunan Construction Engineering Group Corporation and the Canadian Delamore & Owl Group of Companies in the areas of funding and joint project development across India and neighbouring countries. The triumvirate intends to work as

joint venture partners to co-develop and fund projects across India and neighbouring countries. While R.P.P Infra and Hunan will act as technical construction partners, Delamore & Owl Group will act as the financial partner. For R.P.P, this will not only enhance our capacity to bid for larger projects but also grow our order book and revenue visibility.

**Q IS THERE IS ANY POINT OF CONCERN THAT YOU WISH TO SHARE?**

**A** This is not exactly a point of concern but remains a focus nevertheless. Our 2014-15 finance cost was ₹16.67 crores, making our average debt cost on the higher side. We are actively negotiating with our banking consortium for a 75-100 bps reduction in the finance cost during the current

year. Besides, the debt composition has some recoverable debts; the successful mobilization of these dues could reduce our debt. I must mention that we are comfortable in servicing our interest obligation.

**Q WHAT WERE SOME OF THE HIGHLIGHTS OF 2014-15?**

**A** The key developments of the year comprised our successful ability to bid for and bag projects - fresh orders worth ₹46 crores - in a virtually stagnant market, our ability to execute work faster amounting to a 12.97% turnover growth and our ability to contain costs. The result is that

we were able to maintain our 2014-15 operating costs at 2013-14 levels (as a percentage of revenues). The result is that even in a challenging scenario, we sustained dividend payout at Re 0.50 per share.

**Q WHAT ARE SOME OF THE R.P.P INFRA PRIORITIES ACROSS THE SHORT TO MEDIUM-TERM?**

**A** We will continue to focus on EPC projects. We will widen our circle of influence to venture outside South India. We intend to venture into infrastructure verticals like power plant/power

transmission to enhance diversification. Our partnerships with Hunan and Delamore & Owl will not only accelerate order book accretion but enrich our bidding capabilities.

# Managing risks at R.P.P Infra

At R.P.P Infra, 'risk' is viewed as either external or internal events that may at some point of time exploit the weaknesses in the Company's current processes, procedures and systems, impacting objectives and financials. The Company employs a series of

governance and activity-level controls to ensure that the financial statements are free from material misstatements. At the enterprise level, the risk identification and mitigation procedures employed include the following on this page and next:

## 1

### Industry risk

#### Risk impact

Demand is dependent on general economic conditions. A downturn can adversely affect the Company's business and earnings.

#### Risk mitigation measures

Buoyant macroeconomic conditions, especially after the new central government came to power in India in early 2014, have been sustaining economic reform and investments in infrastructure and construction industries (which has been the second largest contributor to GDP growth). The government has created a ₹20,000 crores corpus for a dedicated infrastructure fund and has launched several landmark initiatives including the PMGSY (Pradhan Mantri Gram Sadak Yojana), the PMKSY (Pradhan

Mantri Krishi Sinchai Yojana), the 100 Smart City projects in addition to giving a leg up to power transmission and urban rejuvenation. Besides, with the Tamil Nadu Government in the last year before the State Elections in 2016, augurs well for R.P.P Infra to bag projects locally as well as regionally. Industry buoyancy is also reflected in the fact that the company projects its order book to report healthy growth in 2015-16 (in the first quarter of the current fiscal, the Company bagged fresh orders worth ₹118 crores).

## 2

### Strategy risk

#### Risk impact

A prudent operational strategy is necessary for long-term sustainability.

#### Risk mitigation measures

The Company has embraced a prudent business strategy that includes:

- Focusing only on government contracts; 100% of its order book includes government-awarded projects
- Focusing only on EPC projects
- Focusing only on projects between ₹50-100 crores though the company aspires to bid for and bag larger projects on the back of alliances
- Appointing a techno-commercial central coordinator for each project with an SBU approach

and a direct P&L responsibility

- Focusing on infrastructure niches including cement concrete road and water pipeline development that is marked with lower competitive intensity
- All the above measures resulted in a topline growth of 12.97% year-on-year over the last five years. Besides, R.P.P Infra also provides extensive training to its entire staff in adopting best in class operating procedures as well as focuses on imparting project management and financial modelling skills.

# 3

## Competition risk

### Risk impact

Increasing competition can negatively impact market share and profitability.

### Risk mitigation measures

R.P.P Infra enjoys a solid presence in south India, especially Tamil Nadu. This regional focus has enabled is to create robust brand equity, customer loyalty and generate repeat business. The company has also chosen to work in niche spaces on account of their complexity and require upfront investments.

The company also forged alliances with Hunan Corporation of China and Delamore & Owl of the UK for improving its project bidding and financial structuring capabilities. This consortium approach will enable R.P.P to bid for and bag larger ticket projects and create a stronger project pipeline.

# 4

## Government policy risk

### Risk impact

Uncertainties regarding government policies can significantly affect operations.

### Risk mitigation measures

The Central Government has been prioritising infrastructure investments, limiting the inherent

policy risk. The residual risk is managed by seeking opportunities to control costs and diversify presence across geographies and sectors.

# 5

## Operational risk

### Risk impact

Staff attrition and non-availability of key personnel may affect the Company's operations. Volatility in the prices of critical raw materials also impact project profitability.

### Risk mitigation measures

The Company maintains a workforce based on its current and anticipated workloads. Besides, attrition is managed by adopting healthy employee practices that promote and encourage a good work culture. This is coupled with performance-based promotion and rewards, conflict-resolution mechanisms, sound pay and incentive structures benchmarked with

industry standards. Besides, the Company's active resource – human and equipment – rotation policy minimizes idling. The Company also embraces the best-in-class operating practices that minimize its environmental footprint and mandates the highest adherence to safety standards to counter the impact arising from unforeseen incidents.

## Our opportunity landscape

5. Providing CWSS to 212 rural Habitation in Andhanallur, Manikandam and Manapparai Unions in Trichy District for TWAD Board for ₹38 Core

The total balance value of works on hand as on March 31, 2015 is ₹857.37 Crore.

During the calendar year 2014, slowing demand in some of the major developing economies led to the softening in crude and other global commodity prices. Though the price correction created financial stress in oil exporting countries and also resulted in a disinflationary environment in many oil importing economies, it is expected to be a net positive to global economy in the short to medium term especially for oil/ commodity importing economies like India.

The Indian economy, supported by lower oil prices, improved FDI inflows and pro-growth economic reforms, saw a moderate improvement in growth momentum during F.Y. 14-15 and some of the macroeconomic indicators also strengthened over the year. Though the Central Government is implementing reforms to spur investments and re-energise the economy, it will need some time to recover and show positive results on ground.

In an adverse environment, your company has remained resilient. The Company focused on widening its services by

venturing in to niche areas/ new sectors/ segments, expanding market reach, cost optimization and elevating people potential. As a result, your company has been creating a more robust business model.

### 3. Change in nature of business

There was no change in the nature of the business of the Company and its subsidiaries during the year.

### 4. Dividend & Amounts Transfer to Reserves

Your Directors are pleased to recommend a dividend of 5% i.e. Re. 0.50 per Equity Share of face value of ₹10/- for the Financial Year 2014-2015, subject to the approval of the members of

the Company. The dividend on approval of the shareholder will be paid to the eligible members. The equity dividend outgo for the financial year 2014-15 would absorb a sum of ₹1.13 Crore. The balance profits of ₹15.95 Crore after provision for dividend and dividend distribution tax is proposed to be retained in the Statement of Profit and Loss. Hence, no amount is proposed to be transferred to reserves.

### 5. Extract of Annual Return

The extract of Annual Return, in form MGT - 9, for the Financial Year 2014-15 has been enclosed with this report as Annexure – 1.

There are no significant material orders passed by the Regulators / Courts / tribunals which impact the going concern status of the Company and its future operations.

#### 15. Statement in Respect of Adequacy of Internal Financial Control with Reference to the Financial Statements

##### Internal Controls

A robust system of internal control, commensurate with the size and nature of its business, forms an integral part of the Company's corporate governance policies. Internal Audit has been conducted by qualified outside Internal Auditors. Findings of the Internal Audit report are reviewed by the Management and by the Audit committee of the Board and proper follow up action are ensured wherever required. The Statutory Auditors have evaluated the system of internal controls of the Company and have reported that the same are adequate and commensurate with the size of the company and nature of its business.

##### Internal Financial Controls

As per Section 134(5) (e) of the Companies Act, 2013, the Directors have an overall responsibility for ensuring that the Company has implemented robust systems and framework of internal financial controls.

These include those policies and procedures that:

- i. pertain to the maintenance of records which in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company
- ii. provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles and that receipts and expenditures are being made only in accordance with authorizations of the Management and the Directors of the Company and
- iii. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the assets that can have a material effect on the financial statements.

This provides the Directors with reasonable assurance regarding the adequacy and operating effectiveness of controls with regards to reporting, operational and compliance risks. To enable them to meet these responsibilities, the Company has devised appropriate systems and framework including proper delegation of authority, policies and procedures, effective IT systems aligned to business requirements, Internal audit framework, risk management framework and whistle blower mechanism.

The Audit committee regularly reviews the internal control system to ensure that it remains effective and aligned with the business requirements. Where weaknesses are identified as a result of the reviews, new procedures are put in place to strengthen controls. These are in turn reviewed at regular intervals.

The Company has developed a framework for designing and assessing effectiveness of internal controls over financial reporting and has already laid down entity level policies and process level standard operating procedures.

The entity level policies comprise anti-fraud policies (code of conduct including conflict of interest, confidentiality and whistle

blower policy) and other policies (organization structure, roles and responsibilities, insider trading policy, related party policy, prevention of sexual harassment policy and risk management policy). The Company has also prepared Standard Operating Practices for each of its processes of revenue to receive, procure to pay, hire to retire, finance and accounts, fixed assets, treasury, inventory, operations and administrative expenses.

The Management assessed the effectiveness of the internal financial controls over financial reporting as of March 31, 2015 and the Board believes that the controls are adequate.

### SECRETARIAL AUDIT REPORT FORM NO. MR-3

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2015

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,  
The Members,  
RPP Infra Projects Limited

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by RPP Infra Projects Limited (hereinafter called the company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March 2015 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March 2015 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made there under;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
  - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 1992;
  - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
  - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999;
  - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
  - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
  - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and
  - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 1998;
- (vi) The list of major heads/ group of Acts, Law and Regulations as applicable to the Company is given in Annexure I. In relation to these laws we have relied on the representation made by the Company and its Officers for system and mechanism formed by the Company for compliances under other applicable Acts, Laws and Regulations as applicable to the Company.

I have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India. (Not notified hence not applicable during the audit period).
- (ii) The Listing Agreements entered into by the Company with National Stock Exchange of India Limited and Bombay Stock Exchange Limited.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above subject to the following observations:

1. The Company has belatedly filed few of the e-forms with Registrar of Companies.
2. The Company has not intimated the resignation of two directors to the stock exchanges as required under listing agreement; and
3. The Company has not intimated the alteration of Articles of Association to the stock exchanges done at the General Meeting as required under listing agreement.

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions of the Board and Committees were unanimous and the same was captured and recorded as part of the minutes and hence no dissent is recorded in minutes.

I further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period:

- (a) The Company has altered the provisions of the Articles of Association;
- (b) The Company has passed a resolution in terms of Section 180(1)(c) of the Companies Act, 2013 for increase in borrowing power upto 500 Crores beyond the paid up capital and free reserves of the Company.

## INDUSTRY STRUCTURE AND DEVELOPMENTS

The IMF in its annual assessment of the Indian economy states that the Indian economy is reviving, helped by positive policy actions that have improved confidence and by lower global oil prices. The report further states that to continue on this trend, India needs to revitalize the investment cycle and accelerate structural reforms.

The Indian economy is the bright spot in the global landscape, becoming one of the fastest-growing big emerging market economies in the world. While the country is well placed to cope with external shocks, there are possible risks on the horizon, both external and domestic such as spillovers from weak global growth and potential global financial market volatility that could prove disruptive.

India's economic profile recently got a lift as the country improved the way it measures economic output. The revised national accounts series incorporates numerous conceptual and methodological improvements that make them more consistent with international best practices. Based on this revised GDP, the IMF forecasts growth will strengthen to 7.2 percent in 2014-15 and rise to 7.5 percent in 2015-16, driven by stronger investment following improvements to the business climate.

Inflation has fallen by half to around 5 percent, after hovering around 10 percent for several years. The government has made strong efforts to put its public finances on solid footing, with the central government's fiscal deficit falling to 4.1 percent of GDP in 2014-15, helped by lower oil prices. By creating space for higher infrastructure spending, fiscal reforms can have a major impact on economic growth. Falling energy prices have significantly improved India's overall fiscal landscape, and augur well for growth in domestic consumption.

Within the next 15 years, India will have the largest, and among the youngest, workforces in the world, and will need to create jobs for the roughly one hundred million young Indians who will enter the job market in the coming decade. Raising India's growth rate and ensuring it begins to generate sufficient jobs requires deeper structural reforms.

Nonetheless, the country needs to implement reforms to address bottlenecks in the energy and mining; as also increasing investment to help close India's major infrastructure gaps.

Since May 2014, the government has taken several strong measures to revive both growth cycle and investor sentiment. In the initial round of its major policy initiatives, the Central government has allowed the FDI in railways and defence sectors,

followed by labour reforms, complete deregulation of diesel prices and easing of FDI rules in construction. Moving ahead on its reforms agenda, the government has also inched closer to its aim of rolling out the Goods and Service tax (GST) from April 2016. Several other initiatives of the government, including efforts to revive stalled projects, re-schedule of premium payouts for road ventures and relaxation of environmental clearances have also alleviated some sector-specific concerns.

India's economy is poised to return to its high-growth path, thanks to lower fiscal and current account deficits, falling inflation, benign commodity prices, and structural reforms to boost investments. Monetary policy is also likely to be supportive with the Reserve Bank of India (RBI) having moved to flexible inflation targeting.

To get the economy fully back on track, the Central government will have to keep up the pace of efforts for the improvement of investor sentiment, climate for doing business by removing bottlenecks, employment generation and containing inflation.

The construction industry is an integral part of the economy, contributing at about 8 per cent of GDP and is also the second largest employer after agriculture, employing about 41 million people. Infrastructure sector plays a very significant role in economic development. Construction sector is viewed as a service industry. It generates substantial employment and provides growth impetus to other manufacturing sectors like cement, bitumen, iron and steel, chemicals, bricks, paints, tiles, construction equipment etc. The growth of this sector is necessary to create employment opportunities, mobilize resources and generate revenues.

## OPPORTUNITIES AND THREATS

It is imperative that India needs to invest significantly in Infrastructure to support the growth aspirations of the entire nation. In order to keep pace with the expected trade growth, the demand for the provision of power, transportation and logistics will also grow commensurately. The Government of India has significantly increased allocation of funds for investments in infrastructure in the Union Budget of 2015-16. Public investment is needed to re-invigorate the sector and steps are required to revitalize the public-private partnership model of investment. Buoyancy in orders is likely in FY15-16 led by greater impetus on infra investments and government action to revive stalled projects and ensure fast-track approvals for new ones. The urban infra, road and water segments are likely to dominate order flow.

The sector continues to face rising material and labour costs. High inflation have dampened private sector investments in capital expenditure. These along with high interest rates have led to drops in margins. Working capital cycle has been elongated mainly due to stretched receivables, which has affected the cash flow position of companies in the sector.

## OPERATIONS REVIEW & SEGMENT WISE PERFORMANCE

The Company is engaged in the business of infrastructure development such as highways, roads, bridges, civil construction work for irrigation and water supply projects and power plants. The Company is focused on strengthening its presence across the present operating verticals, venture in to niche areas, capitalize on new opportunities and invest in growth with prudence.

RPP is pursuing strategic objectives of continuously growing the order book and executing them efficiently, by adopting best practices that enables it to achieve quality, cost optimization and timely completion of projects.

Emphasis continued on continuous improvements in project execution efficiencies, which has resulted in notable gains in terms of operating margins and employee productivity. All of these have played their part in the company improving its performance in a highly competitive environment.

#### FINANCIAL PERFORMANCE

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013, guidelines issued by the Securities and Exchange Board of India and Generally Accepted Accounting Principles (GAAP) in India. The management of RPP accepts responsibility for the integrity and objectivity of these financial statements, as well as for

various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, in order that the financial statements reflect in a true and fair manner the form and substance of transactions and reasonably present the state of affairs on the Balance Sheet and profit of the Company for the year ended on that date. RPP delivered superior financial performance with improvements across key parameters.

The revenue from operations achieved for the year was ₹263 crore as against ₹233 crore in the previous year which is an increase of 13% on y-o-y basis. RPP's core business is engineering and construction and it executes its works on the basis of contracts. Considering the adverse economic and financial environment, the Company has successfully executed projects and has performed well in revenue terms. This underscores the Company's position of strength in its various businesses and its strength to harness opportunities offered by the growing Indian economy.

The consumption of materials and other direct costs increased by 17 % to ₹211 crore as against ₹181 Crore in the previous year. Employee cost was ₹5.33 Crore for the year as against ₹6.13 Crore in the previous year.

The EBIDTA for the year was ₹39.28 crore as compared to ₹38.02 crore in the previous year. The EBIDTA margin decreased from 15.90% in FY13-14 to 14.68% in FY14-15.

Finance cost was higher at ₹16.67 Crore as against ₹15.72 Crore in the previous year.

Depreciation (including depletion and amortization) was lower at ₹7.25 Crore, as against ₹7.42 Crore in the previous year.

Effective 1 April 2014, the Company has changed the method of providing depreciation from written down value to straight line method. In management's view this change results in more appropriate presentation and gives a systematic basis of depreciation charge, representative of pattern of usage and economic benefits of the assets and provide greater consistency with the depreciation charge. Accordingly, excess depreciation charged for earlier years upto 31st March, 2014 aggregating ₹14.92 crore has been written back and recognized as an exceptional item in the Statement of Profit and Loss in the previous year ended 31st March, 2015.

The Company has sold the Wind Electric generator, which is a

non-core business, and the loss on sale of ₹8.60 crore has been accounted under exceptional item.

Profit after tax was ₹17.27 crore as against ₹11.69 Crore for the previous year.

The total secured and unsecured loans by way of working capital cash credit, term loans and hire purchase loans for fixed assets at the end of the year under review were ₹105.54 crore as compared to ₹91.85 crore as on 31st March 2014. The net increase is ₹13.69 crore.

The capital expenditure for the year ended March 31, 2015 was ₹0.43 crore. Assets of the value of ₹18.92 crore were sold during the year.

Gross working capital as at March, 31 2015 was ₹321.84 Crore, comprising mainly customer receivables of ₹170 Crore and Unbilled revenue of ₹93 crore. Unbilled revenue represents amounts to be billed to the Contractee clients in respect of revenue earned under the percentage completion method, followed by the Company, as reduced by that portion of such revenue already billed and receivable from those clients. Net working capital as at March 31, 2015 was ₹79.61 Crore as against ₹77.71 crore for the year ended March 31, 2014. The Construction infrastructure industry is by its nature working capital intensive and net investments in current assets amount to a significant proportion of total income.

Return on Capital employed was at 26.67% and return on equity was at 12.76%

Cash accruals from the operations were higher at ₹20.14 crore as compared to the previous year. Apart from deployment of cash for capital expenditure, the company has repaid long term loans of ₹2.25 Crore and raised the working capital loans by ₹6.57 Crore during the year. Consequently, there was net cash inflow of ₹2.49 crore.

As on March 31, 2015, RPP's total debt was at ₹105.54 Crore. RPP's gross debt to equity ratio, including long-term and short-term debt, as on March 31, 2015 was at 0.82.

## Group Results

Highlights of RPP's consolidated performance for the year are as follows:

- Revenue from operations increased by around 11% to ₹265.94 Crore

- EBITDA was ₹39.64 Crore
- Profit Before Tax was ₹21.11 Crore
- Net Profit increased to ₹16.58 Crore

## BUSINESS OUTLOOK

Industry experts expect a pickup in India's construction sector in FY 2015-16, after holding a more conservative outlook in FY 2014-15. Growth will be underpinned by positive reform momentum, improving funding environment with the Reserve Bank of India continuing to ease monetary policies and continued focus by the government to develop the country's infrastructure which will help to accelerate infrastructure projects. It is estimated that FY2015-16 will register a pickup in construction activity and forecasts indicate the sector to grow by 6.0%, up from 4.3% in FY2014-15 in real terms. According to the Ministry of Statistics and Programme Implementation (MOSPI), the construction sector grew by 1.4% year-on-year (y-o-y) in real terms for Q4 of FY2014-15, representing a slowdown in growth over the past two quarters.

Beyond FY2015-16, experts believe that as various reforms begin to gain traction and attract greater private investment, the construction sector is forecast to grow by an annual average of 6.6% between FY2016-17 and FY2019-20 in real terms. Forecasts suggest a strengthening of growth in the country's construction sector, as positive growth drivers gradually gain traction. Infrastructure is also a key focus of the government as outlined in the FY2015-16 budget. The improving funding conditions and various other measures the government is taking to boost funding for construction companies would reignite credit growth amid a benign inflationary environment.

The construction industry in India is the second largest employer and contributes more than 10% of India's GDP. 50% of the demand for construction activity in India is for infrastructure, and the rest comes from industrial activities, residential and commercial development etc. The Indian construction industry is valued at over USD 126 Billion (117 Billion Euro).

The rapid growth of Indian cities opens huge opportunities for the construction industry. India has the second largest urban population in the world, and it contributes significantly to India's GDP (accounting for 62 – 63% in 2009-10 and project to reach 70 – 75% by 2030). Between the census of 2001 and

2011, 91 million people moved into India's urban centers – a growth of around 32%. Recent estimates suggest that by 2030 nearly 590 Million people will live in Indian cities. While the population keeps swelling, the infrastructure is struggling to even meet the demands of the existing urban population. There is need for re-generation of urban areas in existing cities and the creation of new, inclusive Smart Cities to meet the demands of increasing population and migration from rural to urban areas. Future cities of India will require smart real estate and urban infrastructure. Over the next 20 years investments of USD 650 Billion are estimated in urban infrastructure.

The Government of India is in the process of launching a new urban development mission. This will help develop 500 cities, which include cities with a population of more than 100,000 and some cities of religious and tourist importance. These cities will be supported and encouraged to harness private capital and expertise through Public Private Partnerships (PPPs), to holster their infrastructure and services in the next 10 years.

An investment of USD 1,000 Billion has been projected for the infrastructure sector by 2017, 40% of which is to be funded by the private sector. 45% of infrastructure investment will be funneled into construction activity and 20% set to modernize the construction industry.

The medium and long term prospects for the Indian building and construction industry are very promising; the potential for infrastructure investments for the next 15 years is still huge as the dynamic growth in the Indian population stimulates the need for infrastructure improvements. All those factors create a positive effect on the domestic construction industry.

### Growth Strategies

Your company primarily focuses on ensuring cost competitiveness, timely execution of projects within cost estimates, managing volatility, control over working capital, achieving operational efficiency, and improved supply chain management.

The focus is on expanding customer base, strengthening

business development efforts, better account management, cost leadership and foraying in to new business segments and geographies.

### RISKS AND CONCERNS

Mitigation of risks is the all en-compassing requirement. Broadly speaking, Construction Projects face the following type of risks:

**Completion risk:** This is the risk that the project may not be completed on time, or at all, due to various reasons such as cost overruns, technology failure, force majeure etc

**Resource risk:** This risk includes the non-availability of raw materials for the project operation. It also includes the risk that the raw material prices might move adversely.

**Operating risk:** This is a risk that the project costs would escalate. It also includes the risk that the project will have operational problems.

**Casualty risk:** This is the risk of physical damage to the project equipment. It also includes liabilities to third parties on account of accidents at the project site.

**Site risk:** This is the risk that the project site might have legal encumbrances. It also includes the risk that the site has technical problems.

The Company has taken a number of initiatives such as deployment of risk mitigation strategies, superior execution of projects and astute cost management to deal with an overall environment dominated by high interest rates, sluggish demand, liquidity issues and higher input costs for the second year running. The Company has adopted a pragmatic approach to navigate through the turbulent times and had cut down on overhead expenses and optimally stretched its available resources, making it lean yet effective in order to improve its operational efficiencies.

### RISK MANAGEMENT POLICY

Risk Management is an integral part of the business process. The risk management process, inter alia provides for review

of the risk assessment and mitigation procedure and timely report to the management and review of the identified risks at periodical interval to assess the progress of control measures. The Audit committee of the Board reviews the risk management efforts periodically.

The company follows the following risk management framework:

- Risk identification
  - This function involves pre-emptive strategies to identify potential risks and evolve a framework for mitigation
- Risk assessment and analysis
  - Risk assessment is the objective evaluation of the quantitative and qualitative value of risk related to the uncertainties of a specific situation
- Proactive risk governance measures
  - This requires the organization to ascertain action plans to address identified issues and forestall potential damage
- Comprehensive risk reporting
  - Record the causes and mitigation measures for future reference

The reporting systems ensure precise monitoring for quick decision making and smooth running of the operations. Prompt attention is drawn to any risk related function which is then closely monitored to enable appropriate decision making to avoid problems/ regain stability within the shortest possible time.

## INTERNAL CONTROLS AND THEIR ADEQUACY

Your Company has adequate internal control systems to monitor business processes, financial reporting and compliance with applicable regulations. It has documented procedures covering

all financial, operating and management functions. These controls have been designed to provide a reasonable assurance with regard to maintaining proper accounting controls, monitoring of operations, protecting assets from unauthorized use or losses, compliances with regulations and for ensuring reliability of financial reporting. The Company has continued its efforts to align all its processes and controls with best practices in these areas as well. The systems are periodically reviewed for identification of control deficiencies and formulation of time bound action plans to improve efficiency at all the levels.

The Audit committee of the Board reviews internal control systems and their adequacy, significant risk areas, observations made by the internal auditors on control mechanism and the operations of the company, recommendations made for corrective action and the internal audit reports. The committee reviews with the statutory auditors and the management, key issues, significant processes and accounting policies. The company continues its efforts in strengthening internal controls to enable better management and controls over all processes.

## HUMAN RESOURCE DEVELOPMENT AND INDUSTRIAL RELATIONS

Our continued success will depend in part on our ability to retain and attract key personnel with relevant skills, expertise and experience. We are aware of the challenge in attracting and retaining the best of talents in the industry. Presently, our company has over 121 employees at various levels under its direct employment. We have in place a well-drawn out HR Policy and a working environment encouraging innovation, cost reduction and a time bound completion of projects along with measures targeted to emerge as a merit driven organization in these challenging times. The management has been paying special attention to various aspects like employee training, welfare and safety thereby strengthening the human resources.

## INDEPENDENT AUDITORS' REPORT

To  
The Members of  
RPP INFRA PROJECTS LIMITED

### Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of RPP INFRA PROJECTS LIMITED which comprise the Balance Sheet as at 31 March 2015, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are

required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate

in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;

## Notes forming part of Accounts

### Note No.1 Significant Accounting Policies

#### 1.1 Basis of Preparation

The Company maintains its accounts on accrual basis following the historical cost convention in accordance with generally accepted accounting principles ["GAAP"]. Further, the guidance notes / announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations viz. SEBI guidelines override the same requiring a different treatment.

The financial statements are prepared in accordance with the requirements of the Companies Act, 2013, and comply with the Accounting Standards referred to in Section 133 of the said Act. The preparation of financial statements in conformity with GAAP requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. Examples of such estimates include the useful lives of tangible and intangible fixed assets, allowance for doubtful debts/advances, future obligations in respect of retirement benefit plans, etc. Difference, if any, between the actual results and estimates is recognized in the period in which the results are known.

#### 1.2 Presentation of financial Statement

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The Cash Flow Statement has been prepared and presented as per the requirements of Accounting Standard (AS) 3 "Cash Flow Statements". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of accounts along with the other notes required to be disclosed under the notified Accounting Standards and the Listing Agreement.

Amounts in the financial statements are presented in Indian Rupees in Crore rounded off to two decimal places in line with the requirements of Schedule III except where stated otherwise. Per share data are presented in Indian Rupees to two decimal places.

#### 1.3 Revenue Recognition

##### A. Accounting of construction contracts

The Company follows the (Accounting Standard 7) percentage completion method, based on the stage of completion as at the balance sheet date, taking into account the contractual price and revision there to by estimating total revenue and total cost till completion of the contract and the profit so determined has been accounted for proportionate to the percentage of the actual work done as on the date of the Balance Sheet.

##### Disclosure pursuant to Accounting Standard 7 (Revised) "Construction contracts"

Particulars	₹ Crore	
	2014-15	2013-14
Contract revenue recognized for the financial year	263.14	232.92
Aggregate amount of contract costs incurred and recognized profits (less recognized losses) as at end of the financial year for all contracts in progress as at that date	211.26	181.32
Amount of customer advances outstanding for contracts in progress as at the end of the financial year	4.28	2.85
Retention amounts due from customers for contracts in progress as at the end of the financial year	37.98	37.34

##### B. Other Operational Income

Other Operational Income Includes Revenue for Technical services provided and accounted on accrual basis.

##### C. Other Income

- Claims were accounted as income in the year of receipt of arbitration award or acceptance by client or evidence of acceptance.

## Notes forming part of Accounts (contd.)

- b. Income of Power Generation from Windmill was accounted in the period in which the right to receive of the same is established.
- c. Interest income is recognised on the time proportion basis.
- d. Other items of income are accounted as and when the right to receive arises.

### 1.4 Extraordinary and exceptional Items

Income or expenses that arise from events or transactions that are clearly distinct from the ordinary activities of the Company are classified as extraordinary items. Specific disclosure of such events/transactions is made in the financial statements. Similarly, any external event beyond the control of the Company, significantly impacting income or expense, is also treated as extraordinary item and disclosed as such.

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company, is such that its disclosure improves an understanding of the performance of the Company. Such income or expense is classified as an exceptional item and accordingly disclosed in the notes to accounts.

### 1.5 Classification of Assets and Liabilities

The Schedule III to the Companies Act, 2013 requires assets and liabilities to be classified as either Current or Non-current.

- a) An asset shall be classified as current when it satisfies any of the following criteria:
  - I. it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
  - II. It is held primarily for the purpose of being traded;
  - III. It is expected to be realized within twelve months after the reporting date; or
  - IV. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.
- b) All assets other than current assets shall be classified as non-current.
- c) A liability shall be classified as current when it satisfies any of the following criteria:
  - I. It is expected to be settled in the company's normal operating cycle;
  - II. It is held primarily for the purpose of being traded;
  - III. It is due to be settled within twelve months after the reporting date; or
  - IV. The company does not have an unconditional right to defer settlement of the liability for at least twelvemonths after the reporting date.
- d) All liabilities other than current liabilities shall be classified as non-current.

### 1.6 Fixed Assets

- a) Fixed assets are stated at their original cost of acquisition and installation, less accumulated depreciation, amortisation and impairment losses, if any. Cost comprises of the purchase price and any other directly attributable cost of bringing the asset to its working condition for its intended use.
- b) Administrative and other general overhead expenses that are specifically to construction or acquisition of Fixed Assets or bringing the Fixed Assets to working conditions are allocated and capitalised as a part of the cost of the Fixed Assets.
- c) Borrowing costs that are directly attributable to the acquisition of qualifying assets are capitalised for the period until the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs are recognised as an expense in the period in which they are incurred.
- d) Depreciation on fixed assets has been provided using straight line method, where hitherto Written Down Value method was adopted, in the manner and at the rates prescribed in Schedule II to the Companies Act, 2013. Effective 1 April

## Notes forming part of Accounts (contd.)

2014, the Company has changed the method of providing depreciation from written down value to straight line method. In management's view this change results in more appropriate presentation and gives a systematic basis of depreciation charge, representative of pattern of usage and economic benefits of the assets and provide greater consistency with the depreciation method used by other companies in the infra industry. Accordingly, excess depreciation charged for earlier years upto 31st March, 2014 aggregating Rs.14,92,29,232/- has been written back and recognized as an exceptional item in the Statement of Profit and Loss for the year ended 31st March, 2015.

The difference in the depreciation amounting to Rs.28,86,054/- due to changes to comply with schedule II of The Companies Act 2013 based on the useful lives of the assets has been debited to the Profit and Loss account.

Had the Company continued to use the earlier method of depreciation?

Particulars	₹ Crore
	Year ended 31st March, 2015
Depreciation charge for the year would have been higher by	6.16
Deferred tax expense would have been lower by	1.20
Net profit for the year would have been lower by	4.17

- e) Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation / depletion. The costs comprises of all cost, including financing costs till commencement of commercial production, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible asset.
- f) Purchase cost and user license fees for major software are amortised over a period of three years.
- g) Own fabricated assets are capitalized at cost including an appropriate share of overheads.
- h) Depreciation for additions to/deductions is calculated @ pro-rata from/to the date of additions/deductions during the year.
- i) Tangible assets not ready for the intended use on the date of the Balance Sheet are disclosed as Capital Work-in-Progress.

### 1.7 Operating Cycle

An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

### 1.8 Investments

Long Term investments are valued at cost, less provision for diminution other than temporary, in value, if any. Current investments are stated at lower of cost and fair value, computed category-wise

### 1.9 Cash and equivalents

Cash and cash equivalents comprise of cash at bank and cash in hand. The Company considers all highly liquid investments with an original maturity of three months or less from date of purchase, to be cash equivalents.

### 1.10 Provisions and Contingent Liabilities

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on management estimate required to settle the obligation at the Balance Sheet date. These are reviewed as on the Balance Sheet date and adjusted to reflect the current best estimates.

A disclosure for a Contingent liability is made when there is a possible obligation or a present obligation that may but probably will not, requires an outflow of resources. When there is a possible obligation or present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

## Notes forming part of Accounts (contd.)

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

### 1.11 Foreign Exchange Translation of Projects and Accounting of Foreign Exchange Translations

Transactions in Foreign currencies are recorded at the rate prevailing on date of transaction. Foreign Branch and Subsidiaries are classified as non-integral foreign operations. Assets and Liabilities (both monetary and non-monetary) are translated at the closing rate at the end of year. Income and Expenses are translated at the monthly average rate. All the resulting exchange differences are accumulated in a separate head "Foreign Currency Translation Reserve" and the same is shown in Balance Sheet under Reserves and Surplus.

- a) Assets and Liabilities are translated at the exchange rate prevailing on the last day of the year
- b) Income and Expenditure are translated at the monthly average exchange rate.

Gains or losses arising out of remittance at the year-end are credited / debited to the statement of profit and loss for the year.

Gains or losses arising out of translations at the year-end are credited / debited to the Foreign Currency Translation Reserve under Reserves and Surplus.

### 1.12 Accounting for Taxes on Income

#### a) Current Income Tax:

Provision for Current Tax is made based on taxable Income computed for the year under the Income Tax Act, 1961, after deducting the profit for which the company is likely to claim exemption u/s 80IA.

#### b) Deferred Taxes :

Deferred Tax is accounted for by computing the tax effect of timing differences which arise during the year and reverse in subsequent periods. Timing differences arising due to difference in depreciation as per accounting records and Income Tax Act has alone been considered. Deferred tax assets are recognized and carried forward only to the extent that there is a certainty that sufficient future taxable income will be available against which such Deferred Tax Assets can be realised.

### 1.13 Employees Benefits

- a) Employer's contribution to the recognized provident fund which is a defined contribution scheme and ESI Contribution as per law are charged to the Profit and Loss account.
- b) Provision for Gratuity has been made for the year as per prudent management estimate as the company could not obtain an estimate from actuarial valuer for the provision.

### 1.14 Earnings per Share

The Company reports basic and diluted earnings per share in accordance with Accounting Standard (AS20). Earnings per Share notified by the Companies (Accounting Standards) Rules, 2006. Basic earnings per equity shares are computed by dividing the net profit for the year attributable to the Equity Shareholders including the extraordinary profits arising out of the change in the method of depreciation from WDV method to straight line method by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit for the year adjusting for the effects of dilutive potential equity shares attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti dilutive.

## REPORT OF THE AUDITOR TO THE BOARD OF DIRECTORS ON CONSOLIDATED FINANCIAL STATEMENTS OF M/s. RPP INFRA PROJECTS LTD

We have audited the attached Consolidated Balance Sheet of M/s. RPP INFRA PROJECTS LIMITED and its subsidiaries, as at 31.03.2014, and also the Consolidated Profit and Loss Account and the Consolidated Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Group's management and have been prepared by the management on the basis of the separate Financial Statements and Other Financial Information regarding components. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

We did not audit the Financial Statements of the Subsidiary Companies in Mauritius and Sri Lanka, whose Financial Statements reflected the details as given below for the year ended 31st March, 2014 which have been audited by Other Auditors whose report has been furnished to us, and our opinion is based solely on the report of such Other Auditors.

## Notes forming part of Consolidated Accounts

### Note No.1 Significant Accounting Policies

#### 1.1 Basis of Preparation

The Company maintains its accounts on accrual basis following the historical cost convention in accordance with generally accepted accounting principles ["GAAP"]. Further, the guidance notes / announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations viz. SEBI guidelines override the same requiring a different treatment.

The financial statements are prepared in accordance with the requirements of the Companies Act, 2013, and comply with the Accounting Standards referred to in Section 133 of the said Act. The preparation of financial statements in conformity with GAAP requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. Examples of such estimates include the useful lives of tangible and intangible fixed assets, allowance for doubtful debts/advances, future obligations in respect of retirement benefit plans, etc. Difference, if any, between the actual results and estimates is recognized in the period in which the results are known.

#### 1.2 Presentation of financial Statement

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The Cash Flow Statement has been prepared and presented as per the requirements of Accounting Standard (AS) 3 "Cash Flow Statements". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of accounts along with the other notes required to be disclosed under the notified Accounting Standards and the Listing Agreement.

Amounts in the financial statements are presented in Indian Rupees in Crore rounded off to two decimal places in line with the requirements of Schedule VI except where stated otherwise. Per share data are presented in Indian Rupees to two decimal places.

#### 1.3 Revenue Recognition

##### A. Accounting of construction contracts

The Company follows the (Accounting Standard 7) percentage completion method, based on the stage of completion as at the balance sheet date, taking into account the contractual price and revision there to by estimating total revenue and total cost till completion of the contract and the profit so determined has been accounted for proportionate to the percentage of the actual work done as on the date of the Balance Sheet.

##### B. Other Operational Income

Other Operational Income Includes Revenue for Technical services provided and accounted on accrual basis.

##### C. Other Income

- a. Claims were accounted as income in the year of receipt of arbitration award or acceptance by client or evidence of acceptance.
- b. Income of Power Generation from Windmill was accounted in the period in which the right to receive of the same is established.
- c. Interest income is recognised on the time proportion basis.
- d. Other items of income are accounted as and when the right to receive arises.

#### 1.4 Extraordinary and exceptional Items

Income or expenses that arise from events or transactions that are clearly distinct from the ordinary activities of the Company are classified as extraordinary items. Specific disclosure of such events/transactions is made in the financial statements.

## Notes forming part of Consolidated Accounts (contd.)

Similarly, any external event beyond the control of the Company, significantly impacting income or expense, is also treated as extraordinary item and disclosed as such.

On certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company, is such that its disclosure improves an understanding of the performance of the Company. Such income or expense is classified as an exceptional item and accordingly disclosed in the notes to accounts.

### 1.5 Classification of Assets and Liabilities

The Revised Schedule III to the Companies Act, 2013 requires assets and liabilities to be classified as either Current or Non-current.

- a) **An asset shall be classified as current when it satisfies any of the following criteria:**
  - I. it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
  - II. It is held primarily for the purpose of being traded;
  - III. It is expected to be realized within twelve months after the reporting date; or
  - IV. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.
- b) **All assets other than current assets shall be classified as non-current.**
- c) **A liability shall be classified as current when it satisfies any of the following criteria:**
  - I. It is expected to be settled in the company's normal operating cycle;
  - II. It is held primarily for the purpose of being traded;
  - III. It is due to be settled within twelve months after the reporting date; or
  - IV. The company does not have an unconditional right to defer settlement of the liability for at least twelvemonths after the reporting date.
- d) **All liabilities other than current liabilities shall be classified as non-current.**

### 1.6 Fixed

- a) Fixed assets are stated at their original cost of acquisition and installation, less accumulated depreciation, amortisation and impairment losses, if any. Cost comprises of the purchase price and any other directly attributable cost of bringing the asset to its working condition for its intended use.
- b) Administrative and other general overhead expenses that are specifically to construction or acquisition of Fixed Assets or bringing the Fixed Assets to working conditions are allocated and capitalised as a part of the cost of the Fixed Assets.
- c) Borrowing costs that are directly attributable to the acquisition of qualifying assets are capitalised for the period until the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs are recognised as an expense in the period in which they are incurred.
- d) Depreciation on fixed assets has been provided using straight line method, where hitherto Written Down Value method was adopted, in the manner and at the rates prescribed in Schedule II to the Companies Act, 2013. Effective 1 April 2014, the Company has changed the method of providing depreciation from written down value to straight line method. In management's view this change results in more appropriate presentation and gives a systematic basis of depreciation charge, representative of pattern of usage and economic benefits of the assets and provide greater consistency with the depreciation method used by other companies in the infra industry. Accordingly, excess depreciation charged for earlier years upto 31st March, 2014 aggregating Rs.14,92,29,232/- has been written back and recognized as an exceptional item in the Statement of Profit and Loss for the year ended 31st March, 2015.

## Notes forming part of Consolidated Accounts (contd.)

The difference in the depreciation amounting to Rs.28,86,054/- due to changes to comply with schedule II of The Companies Act 2013 based on the useful lives of the assets has been debited to the Profit and Loss appropriation account.

Had the Company continued to use the earlier method of depreciation?

Particulars	₹ Crore
	Year ended 31st March, 2015
Depreciation charge for the year would have been higher by	6.16
Deferred tax expense would have been lower by	1.20
Net profit for the year would have been lower by	4.17

- e) Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation / depletion. The costs comprises of all cost, including financing costs till commencement of commercial production, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible asset.
- f) Purchase cost and user license fees for major software are amortised over a period of three years.
- g) Own fabricated assets are capitalized at cost including an appropriate share of overheads.
- h) Depreciation for additions to/deductions is calculated @ pro-rata from/to the date of additions/deductions during the year.
- i) Tangible assets not ready for the intended use on the date of the Balance Sheet are disclosed as Capital Work-in-Progress.

### 1.7 Operating Cycle

An operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

### 1.8 Investments

Long Term investments are valued at cost, less provision for diminution other than temporary, in value, if any. Current investments are stated at lower of cost and fair value, computed category-wise

### 1.9 Cash and equivalents

Cash and cash equivalents comprise of cash at bank and cash in hand. The Company considers all highly liquid investments with an original maturity of three months or less from date of purchase, to be cash equivalents.

### 1.10 Provisions and Contingent Liabilities

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on management estimate required to settle the obligation at the Balance Sheet date. These are reviewed as on the Balance Sheet date and adjusted to reflect the current best estimates.

A disclosure for a Contingent liability is made when there is a possible obligation or a present obligation that may but probably will not, requires an outflow of resources. When there is a possible obligation or present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

### 1.11 Foreign Exchange Translation of Projects and Accounting of Foreign Exchange Translations

Transactions in Foreign currencies are recorded at the rate prevailing on date of transaction. Foreign Branch and Subsidiaries are classified as non-integral foreign operations. Assets and Liabilities (both monetary and non-monetary) are translated at the closing rate at the end of year. Income and Expenses are translated at the monthly average rate. All the resulting exchange

## Notes forming part of Consolidated Accounts (*contd.*)

differences are accumulated in a separate head "Foreign Currency Translation Reserve" and the same is shown in Balance Sheet under Reserves and Surplus.

- a) Assets and Liabilities are translated at the exchange rate prevailing on the last day of the year
- b) Income and Expenditure are translated at the monthly average exchange rate.

Gains or losses arising out of remittance at the year-end are credited / debited to the statement of profit and loss for the year.

Gains or losses arising out of translations at the year-end are credited / debited to the Foreign Currency Translation Reserve under Reserves and Surplus.

### 1.12 Accounting for Taxes on Income

#### a) Current Income Tax:

Provision for Current Tax is made based on taxable Income computed for the year under the Income Tax Act, 1961, after deducting the profit for which the company is likely to claim exemption u/s 80IA.

#### b) Deferred Taxes :

Deferred Tax is accounted for by computing the tax effect of timing differences which arise during the year and reverse in subsequent periods. Timing differences arising due to difference in depreciation as per accounting records and Income Tax Act has alone been considered. Deferred tax assets are recognized and carried forward only to the extent that there is a certainty that sufficient future taxable income will be available against which such Deferred Tax Assets can be realised.

### 1.13 Employees Benefits

- a) Employer's contribution to the recognized provident fund which is a defined contribution scheme and ESI Contribution as per law are charged to the Profit and Loss account.
- b) Provision for Gratuity has been made for the year as per prudent management estimate as the company could not obtain an estimate from actuarial valuer for the provision.

### 1.14 Earnings per Share

The Company reports basic and diluted earnings per share in accordance with Accounting Standard (AS20). Earnings per Share notified by the Companies (Accounting Standards) Rules, 2006. Basic earnings per equity shares are computed by dividing the net profit for the year attributable to the Equity Shareholders including the extraordinary profits arising out of the change in the method of depreciation from WDV method to straight line method by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit for the year adjusting for the effects of dilutive potential equity shares attributable to the Equity Shareholders by the weighted average number of the equity shares and dilutive potential equity shares outstanding during the year except where the results are anti dilutive.
